

Let's join forces.

Our partnership opportunities

5app.

Hi, we're 5app!

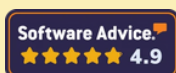

For over a decade, our award-winning 5app learning and comms platform has been helping organisations worldwide simplify how they learn and share knowledge.

And in a world full of complexity, we believe that keeping things simple is the best way.

To do this, we've assembled a team of learning, HR and tech experts who can empower you to deliver the most seamless experiences to your customers.

Let us show you how.

Better, together.

Our partnership options

Reseller Partner

Are you looking to digitise your learning content? Or do you need a quicker, easier way to manage and distribute your existing learning libraries?

As your learning partner, we will be an extension of your team. We'll help you unlock new revenue streams, increase learner engagement and win new clients.

Content Partnership

Could your learning content + the 5app platform = the next iconic duo? Apply to become a content partner and have your content available as one of our off-the-shelf courses.

Affiliate Partner

Are you an analyst, researcher or learning consultant who's on our wavelength? We're always on the lookout for interesting new ideas and perspectives on the learning industry.

Referral Partner

Found a business or a cause that's the perfect fit for us? Refer us to earn a % of the deal.

Build your store.

Digitise and distribute your content

Bring all your content under one roof.

Events

Files

Links

Host and manage all of your owned content in one central location

Courses

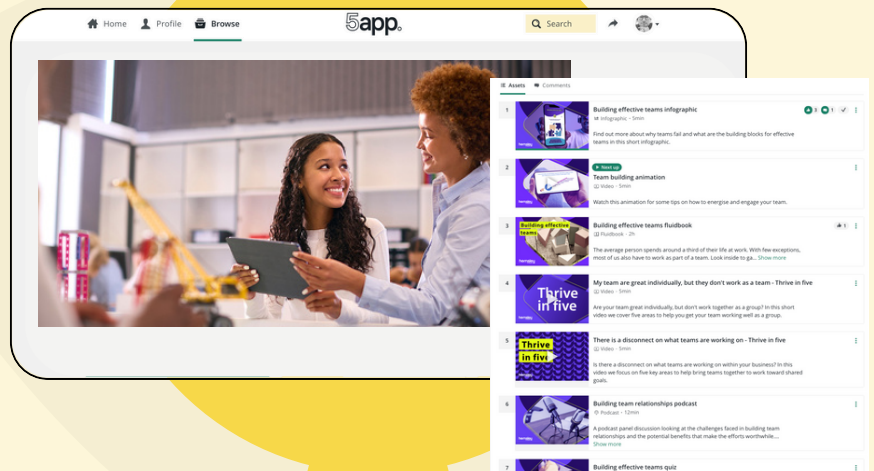

Assessments

SCORM

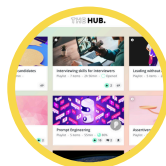

Curate Playlists for your customers.

Organise your content into structured pathways to create your own **content marketplace**

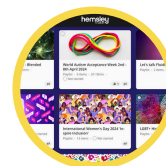

Distribute & sync your Playlists.

In a couple of clicks, Playlists are shared and updated to your customers

DEfactoED

SaaS-based tech - hosted on multiple Amazon Web Servers (AWS) for secure, scalable access

Accessible to all - available on any mobile and desktop device in 30+ native languages

Any content - upload, link or integrate any content or library and distribute to your audience

Integrations - plug 5app into your customer's HR systems and wider tech stack

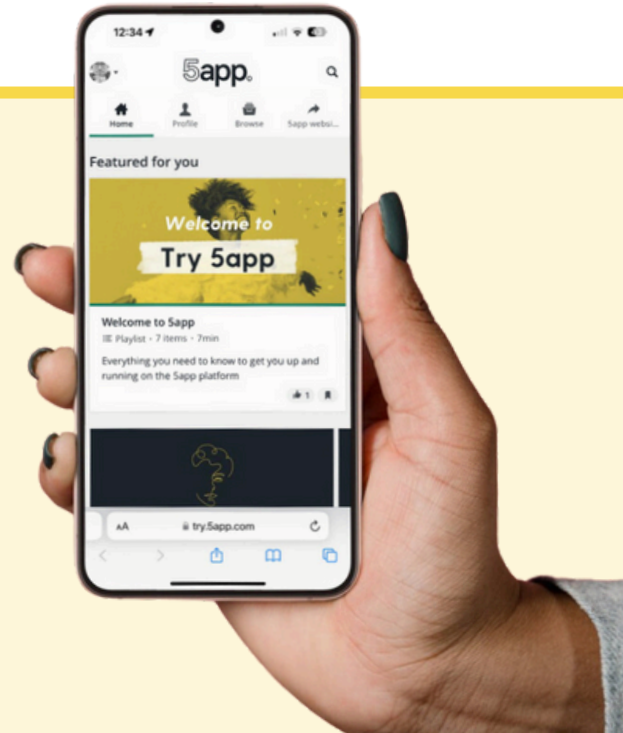

Agile - monthly development cycles, with over 99.99% platform availability

5.

An extension of your team.

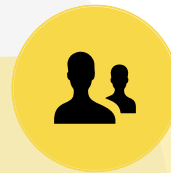

We'll help you hit the ground running and provide a personalised partner model that helps you **create value** for your customers.

We'll set up multiple branded instances of our learning platform, personalised to each of your clients so you can engage with your audiences from the get-go.

We'll help you brew up new business with live demos, bespoke sandboxes, proposal support, and technical consultation tech integrations

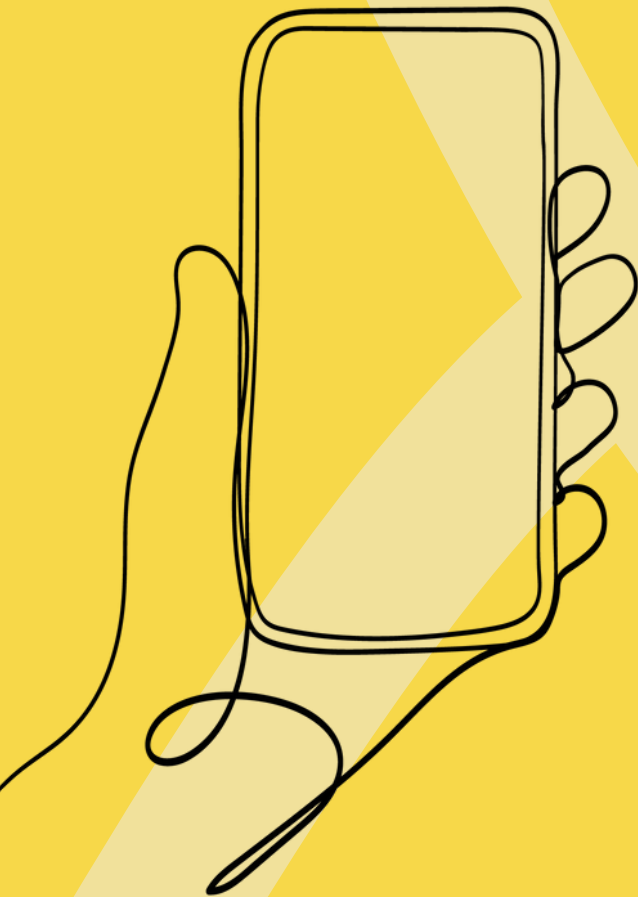

Our UK-based support team will keep you in the loop with regular partner reviews, roadmap sessions and feedback meetings. We're in this together!

A match made in heaven? Let's talk.
